

## Surf the internet with greater SPEED !!

Tata Indicom brings you Speed+, a software application that enhances the speed of your wireless internet. Once installed, this application would automatically detect your Tata Indicom wireless internet connection and speed up your internet.

### Highlights of Speed+

#### **Increases the internet browsing speed :**

**Speed+** increases (almost doubles) the internet browsing speed by applying various compression techniques and protocol optimization

#### **Reduces the upload and download time in FTP :**

**Speed+** significantly reduces the upload and download time

#### **Effective in low signal areas**

**Speed+** provides uninterrupted wireless connection in low signal areas thus reduces drops and session time outs for your Internet.

#### **Operating system Compatibility :**

This application works on Windows 2000, Windows XP & Windows Vista.

This software can be used by all Tata Indicom users who access wireless internet through-

- Data Card/USB modem/Plug2surf
- Mobile
- Walky

All you have to do is to Download & Install this software on your computer. Upon installation, **Speed+** will automatically detect Tata Indicom's wireless internet connection and start enhancing internet speed.

### SUPPORTED OPERATING SYSTEMS AND APPLICATIONS
