

SAMSUNG DUO

Tata Indicom and Samsung unveil India's First Touch Screen based Dual SIM Smart World Phone.

- Samsung Duo is an Innovative World Phone to work with both CDMA as well as GSM networks.
- Its 2 SIM-card slots and Quad band capability support both CDMA as well as GSM connections.
- Samsung Duo is exclusively available on the Tata Indicom network in India.

Providing another avenue for mobile users to switch to Tata Indicom and Experience the superior CDMA service, Tata Teleservices, India's fastest growing telecom service provider and Samsung Telecommunications announces the launch of India's first touch screen based Dual SIM smart world phone - Samsung Duo for customers in India.

Set to revolutionize the Indian market, this Dual SIM phone contains 2 SIM slots, unlike normal phones, which come with a single slot. Targeted at consumers who aspire to reap benefits of high quality mobility, Samsung Duo packs in a host of latest cutting edge features like Large 2.2" TFT Touch Screen, 1.3 Mega Pixel camera, Micro SD Card Slot, MP3/ AAC+ Player with A2DP Bluetooth support.

On the software front the handset packs in exciting functions such as Handwriting Recognition, File Viewer, Sketch Memo, Advanced Organiser Capability with Functional Screen. And for the first time introduced applications specific to the Indian market such as, Indian Calendar, Hinglish, Mobile Prayer, Panchang and Cricket scorer.

The handset supports data speeds at the robust speed of 153kbps on Tata Indicom network and can be connected to your laptop through Bluetooth.

SAMSUNG DUO
